

Key Advances Breakout Group

Finding #1: Interface Development

- 2/16 participants had used the site for a “real purpose”
- 3/16 participants have uploaded a BP to the site
- “It is a connector, we are not judging”
- Need to structure the repository, there is an opportunity to provide synthesis, who will support \$
- Customize the interface
- Search vs Browse
- Early 2020 release of next version of interface

Finding #2: Follow the Data

- FAIR data principles created in 2016
- Template
- Example
- Guidelines
- Principles
- Checklist
- 5 page document on creating best practice

Finding #3: Communication/ Marketing Plan

- How to cope with fast changing landscape for BP
- Approach editors to prominent oceanography journals to introduce the idea of recommending BP be referenced in the manuscript
- Represents a policy change to journals
- Challenges open access, copyright
